

SHIELD

Heat Resistant Rope

Adopts 100% aramid design, with high strength and superior performance. Shield can resist the damage caused by sharp glass and rough surface in complex rescue environment.

- ▶ Material: Core/Aramid, Cover/Aramid
- ▶ The aramid can withstand high temperature of 500°C
- ▶ Low elongation to meet the requirements of safe positioning
- ▶ Compact structure, high strength and light weight
- ▶ Good wear resistance, comfortable handle

Specification

Diameter		Elongation			Strength	Standard
inch	mm	@1.35kN	@2.7kN	@4.4kN	kN	
9/32	7.5	5.0%	6.0%	6.3%	18.3	NFPA1983
5/16	8	2.2%	2.1%	3.8%	22.1	NFPA1983
