

# Super Armor

## Lightweight, Cut-resistant UHMWPE Chafe Guard

Super Armor-RB is a braided sleeve produced in a tubular format, it perfectly combines the lightweight, cut-resistant, and waterproof properties of high-strength polyethylene (UHMWPE) fibers. Its unique braid pattern design makes it flexible. Additionally, a specialized coating for marine environments provides exceptional protection for the rope, ensuring that the product maintains outstanding performance when faced with cutting and abrasion.

 Light weight	 Cut-resistant	 Float in water	 Waterproof properties	 Wear-resistant coating
