

OPTIMA³

Continuous Soft Shackle

High-performance soft shackles made of ultra-high molecular weight polyethylene (UHMWPE).

An excellent alternative to standard steel shackles. The shackles are stronger than traditional shackles which is lighter, easier to handle and safer to use in most situations.

Simple one-piece design with no shackle pin to install, it is very suitable for securing to tow hooks and you can utilize it again and again. Ropers shackle has a special polyester jacket which is also coated. This feature extends the life and adds more protection.

High strength and light weight

Heavy duty chafe protection and durable

Cut-resistance

Soft and easy to use

Can replace metal shackles
