

Super Armor RB

Lightweight, Cut-resistant UHMWPE Chafe Guard

Super Armor-RB is a tubular braided sleeve designed for enhanced convenience and flexibility in use. Its unique braided structure emphasizes the lightweight, cut-resistant, highly abrasion-resistant, and waterproof properties of Ultra-High-Molecular-Weight Polyethylene (UHMWPE) fibers.

Additionally, a specialized marine-grade coating provides exceptional protection for the rope, ensuring that the product maintains superior performance against cuts and abrasion. This coating also gives the product a more rounded shape, facilitating quick and efficient deployment.

<i>Light weight</i>	<i>Cut-resistant</i>	<i>Float on water</i>	<i>Waterproof properties</i>	<i>Wear-resistant coating</i>

Part Number	Fit Rope Diameter	Length
		inch
RB-034	7/8 - 1 1/8	10
RB-048	1 1/4 - 1 3/4	10
RB-060	1 7/8 - 2 3/16	10
