

PR-21 GREEN LINE

Recycled Polyester Rope

Green Line is an eco-friendly rope made by ROPERS using recycled PET material. It is promoting the recycling of synthetic material products and reducing reliance on chemical petroleum resources.

Green Line shares similarities with polyester ropes, has high strength, durability, and is suitable for mooring, docking, and anchoring. It offers protection against harsh weather conditions and is a reliable choice for rope needs.

- ▶ Recycled PET production, saving resources
- ▶ Green environmental protection, reduce pollution
- ▶ Good performance, close to popular polyester

Made Of Wastes

Low Energy Need

Low Carbon Emission

No Soil Erosion

Comparable Polyester

Specification

Diameter		Weight		Minimum Break Strength	
inch	mm	lbs/100ft	kg/100m	lbs	kg
5/16	8	3.3	4.9	2,400	1,100
3/8	10	4.6	6.9	3,740	1,700
1/2	12	7.4	11.0	6,200	2,800
9/16	14	9.0	13.4	7,900	3,600
5/8	16	11.7	17.4	11,000	5,000
