

OPTIMA™

Premium UHMWPE Synthetic Fiber Rope

OPTIMA™ 5 is made of premium Ultra-High Molecular Weight Polyethylene (UHMWPE) fiber and is the highest strength synthetic fiber rope available made by ROPERS. Combined with two-color anti-twist identification design, OPTIMA™ 5 strengthen the protection with the working environment, and the bright two-color identification design can effectively prevent the distortion during operation and avoid the loss of strength.

The OPTIMA™ 5 ropes are suitable for all types of vessels, ranging from small boats, fishing vessels, and yachts, to barges, ferries, cruise ships, and LNG carriers, and even to large container ships, bulk carriers. It is the premier choice for all vessels.

Multi-color and permanent twist identification

Floats

Perfect bending fatigue and relaxation fatigue

Extremely high strength
