

Super Armor HB

General Lightweight Woven Chafe Guard

Super Armor-HB is a woven product that is produced in a tubular format. It combines lightweight softness with exceptional abrasion resistance, making it one of the most commonly used wear protection materials. It is designed for permanent installation. Additionally, Super Armor-HB features an anti-twist identification line. This product is commonly added to the eyes of working lines.

 Anti-twist identification line	 Light weight	 Durable	 Tight weaving enhanced resistance against wear	 Surface coated
