

X21

Pulling Rope

This polyester double braided pulling rope designed for add-on and skidding winches has low elongation, high strength and good wear resistance. The weight of rope is nearly 80% lighter than that of steel wire rope, which can well improve the working efficiency of traction.

- ▶ High strength and low elongation
- ▶ Light weight, flexible operation and higher efficiency
- ▶ Good wear resistance

High strength

Abrasion resistance

Low elongation

Non slip

Bending resistance

No twist

Specification

| Diameter | | Weight | | Strength | |
|----------|----|--------|-----|----------|--------|
| inch | mm | lbf/ft | g/m | lbf | kgf |
| 1/4 | 6 | 0.02 | 19 | 2,200 | 1,000 |
| 5/16 | 8 | 0.03 | 48 | 3,500 | 1,600 |
| 13/32 | 10 | 0.05 | 74 | 4,900 | 2,500 |
| 15/32 | 12 | 0.08 | 114 | 9,300 | 4,240 |
| 9/16 | 14 | 0.10 | 148 | 10,800 | 4,930 |
| 5/8 | 16 | 0.14 | 205 | 14,600 | 6,640 |
| 23/32 | 18 | 0.17 | 246 | 17,500 | 7,990 |
| 7/8 | 22 | 0.25 | 365 | 24,800 | 11,300 |
| 15/16 | 24 | 0.28 | 415 | 27,900 | 12,700 |

- ▶ Can be customized
Specifications are for spliced strengths
