

Super Armor-HB

Durable Rope Chafe

Super Armor-HB features high twist construction, which results in a tightly woven and smooth surface. This construction offers exceptional resistance to wear, cutting, and snagging. Moreover, it is equipped with a protective coating that preserves the sheath's utmost flexibility and resilience, significantly extending its overall lifespan.

- ▶ Versatile protective chafe with a wide range of applications
- ▶ Intricately woven for enhanced resistance against wear, cutting, and snagging
- ▶ Surface coated for an extended lifespan and greater durability

Easy to Use
