

Super Armor-ET

Durable Cover

Using high-strength polyester fiber, the rope cover is woven and formed by special processing technology, which effectively improves the wear resistance and service life. It performs more prominently in harsh environments. Super Armor-ET durable cover polyester braided protective cover for heavy duty work.

- ▶ Unique fiber and structure design.
 - Minimize the friction between the cover and the main body rope. An excellent protection of the rope core.
 - The rope cover can be fixed on the surface of rough objects, isolating the contact between the rough surface and the rope core.
- ▶ Special wear-resistance coating .
- ▶ Soft, can be used for fairlead.
